

OROMIA POTABLE WATER SUPPLY & SEWERAGE SERVICE FEDERATION

Five-Year Strategic Plan & Development Roadmap (2025–2030)

Universal Potable Water Coverage, Climate Resilience, and Digital Utility Modernization

Strategic Cycle:	2025 – 2030 (5-Year Strategic Horizon)
Executive Sponsor:	Eng. Andualem Ayano, Chief Executive Officer
Development Goal:	Regional Potable Water Access Rate Target: 88.5% by 2030

Strategic Pillars of Modernization

- Pillar 1: Non-Revenue Water (NRW) Reduction:** Deploy district metered areas (DMAs), acoustic leak detection hardware, and calibrated bulk ultrasonic flow meters to reduce regional NRW from 38% down to under 20%.
- Pillar 2: Digital Utility Transformation (DUT):** Implement automated meter reading (AMR), mobile billing gateways, and GIS-based hydraulic spatial asset registers across all 20 principal urban utilities.
- Pillar 3: Water Safety & Laboratory Accreditation:** Establish and equip accredited regional water quality testing laboratories compliant with national and WHO standards.
- Pillar 4: Institutional Capacity & Pooled Financing:** Streamline member utilities financial sustainability through transparent membership contribution plans and revolving equipment procurement.
